Blowgun	SS	-2+Special	Nil	5	1	4

### Compound Bow

Notes: These bows are similar to the longbow, but have pulleys and cranks to allow the user to increase the draw of the bow. These bows are of usually of pre-war manufacture, and have draws of 50-150 pounds.

Weapon	Ammunition	Weight	Reload	Price
Compound Bow	Arrow	2.5 kg	1	\$400

Weapon	ROF	Damage	Pen	Bulk	SS	Range
Compound Bow	SS	2	1-2-Nil	7	6	30

### Firing Knife

Notes: This is a knife with a spring-loaded blade, able to fire the blade with great force but with poor accuracy. The blade must be pushed strongly into the handle against a hard object to reload. This weapon is common with Chinese Special Forces and Spetznaz.

### Light Crossbow

Notes: This is a standard sort of crossbow, somewhat heavier than that given in the rules. It has a pull of up to 350 pounds, and is often cocked with a hand crank or lever.

Weapon	Ammunition	Weight	Reload	Price
Light Crossbow	Bolt	5 kg	3; (Prewar) 1	\$400

Weapon	ROF	Damage	Pen	Bulk	SS	Range
Light Crossbow	SS	2	2-Nil	4	2	20
(Prewar)	SS	2	2-Nil	4	2	25

### Longbow

Notes: This is the weapon that made English archers famous. Weapons similar to this were made all over the world, and composite bows are reinforced with bone, extra wood, or fiberglass.

Weapon	Ammunition	Weight	Reload	Price
Longbow	Arrow	1.4 kg	1	\$900

Weapon	ROF	Damage	Pen	Bulk	SS	Range
Longbow	SS	2	Nil	8	7	25
(Composite)	SS	2	2-Nil	8	6	30

### Medium Crossbow

Notes: This is a larger version of the light crossbow, with a pull of up to 400 pounds. It can be found with cranks, pulleys, or levers for cocking, and just as often metal instead of wooden or fiberglass bows.

Weapon	Ammunition	Weight	Reload	Price
Medium Crossbow	Bolt	6 kg	3; (Prewar) 2	\$500

Weapon	ROF	Damage	Pen	Bulk	SS	Range
Medium Crossbow	SS	2	1-Nil	4	3	25
(Prewar)	SS	2	1-Nil	4	3	30

### Oversized Crossbow

Notes: This is a large, ballista-like weapon, firing huge bolts. It must be cranked by an attached pulley system, as it has a pull of up to 1200 pounds. The bow is usually made of thick metal. Most of the weapons of this type are improvised weapons made rather recently when ammunition for firearms became more scarce. They can often be found on an improvised tripod mount.

### Sling

Notes: This is a simple cloth or leather strap with a cup in the middle, to hurl a rock or metal bullet with greater force than possible with the unaided hand. In practice, it requires great skill to use effectively. The sling is fired using Thrown Weapon skill.

Weapon	Ammunition	Weight	Reload	Price
Sling	Rock or Metal Ball	0.2 kg	3	\$10

Weapon	ROF	Damage	Pen	Reload	Bulk	SS	Range
Sling	SS	-2	Nil	3	5	2	10
(With Bullets)	SS	-1	Nil	3	5	2	13

### Speargun

Notes: This is a weapon normally used for hunting underwater. The spear is usually barbed, and a rope or elastic thong usually connects the projectile to the gun. In that case, range is limited by the length of the rope. It is also often used by troops that operate underwater. This weapon, like crossbows, is fired using the Early Firearms skill.

Weapon	Ammunition	Weight	Reload	Price
Speargun	Speargun Spears	4 kg	4	\$700
